

Ali Reda Mohamed

.Net Full Stack Developer

✉ alyredao04@gmail.com ☎ 01067571850 📍 Cairo, Egypt 🌐 Aly Reda 🔄 3lyredao0

SUMMARY

Computer Science student at The Egyptian E-Learning University (EELU) with hands-on training in .NET Full Stack Development through DEPI, ITI, and NTI. Skilled in C#, ASP.NET Core MVC, Entity Framework Core, LINQ, SQL Server, HTML, CSS, JavaScript, and Bootstrap. Experienced in developing web and desktop applications, applying N-Tier Architecture, Repository Pattern, and Object-Oriented Programming principles. Built multiple academic and freelance projects including e-commerce platforms, management systems, and responsive websites. Strong problem-solving, teamwork, and leadership skills demonstrated through leading the ICPC Community at EELU Fayoum.

EXPERIENCE

NET Full Stack Developer Trainee

Digital Egypt Pioneers Initiative (DEPI)

- Developed applications using C# and ASP.NET Core MVC
- Worked with SQL Server and LINQ
- Applied NTier Architecture and Repository Pattern

.NET Summer Training

Information Technology Institute (ITI)

- Practiced C#, ASP.NET, and OOP concepts
- Built simple applications using SQL Server

Head of ICPC Community

2024 – Present

EELU Fayoum

- Organized ICPC training sessions and activities
- Led students and coordinated problem-solving events

Web Designer Trainee

National Telecommunication Institute (NTI)

- Designed responsive website interfaces using HTML, CSS, and Bootstrap
- Created modern UI layouts and landing pages following UX/UI principles
- Worked on web design projects with a focus on responsiveness and user experience

Best Member - Project Management (PM) Team

IEEE

Participated actively in IEEE PM initiatives, contributing to project planning, teamwork, and event coordination

Graphic Designer

El Gebely Pharmacy

- Designed social media posts and marketing materials
- Created graphics for pharmacy products and campaigns

EDUCAION

Bachelor's Degree in Computer Science (In Progress)

The Egyptian E-Learning University (EELU)

SKILLS

Programming Languages

C#, Advanced C#, C++, Java, Python

Databases

SQL Server

Core Concepts

Object-Oriented Programming (OOP), Data Structure

Architecture & Design Pattern

• MVC Architecture, N-Tier Architecture, Repository Pattern

Frameworks & Technologies

ASP.NET Core, LINQ, Entity Framework

Web Technologies

HTML5, CSS3, JavaScript

Tools & Version Control

Git, GitHub, Visual Studio

SOFT SKILLS

• Problem Solving • Leadership • Teamwork & Collaboration • Communication Skills • Project Management

PROJECTS

E-Commerce Application

- Developed an E-Commerce Application using C# and Object-Oriented Programming principles.
- Implemented product management, shopping cart, and order processing functionalities.
- Connected the application with SQL Server for data storage and retrieval.
- Applied CRUD operations and database integration techniques.
- Used Git and GitHub for version control and project management.

N1 Compression E-Commerce Website

Freelance Frontend Web Development Project

- Developed a responsive e-commerce website for a sportswear brand using HTML, CSS, JavaScript, and Bootstrap.
- Designed product pages, categories, and multilingual support (English/Arabic).
- Implemented responsive layouts optimized for desktop, tablet, and mobile devices.
- Created a modern user interface with smooth navigation and enhanced user experience.
- Deployed the project using Vercel for online hosting.

Student Management System

Freelance Java Desktop Application

- Developed a Student Management System using Java and Object-Oriented Programming (OOP) principles.
- Implemented student data management functionalities including adding, updating, searching, and deleting records.
- Applied OOP concepts such as classes, objects, encapsulation, and inheritance.
- Managed the source code using Git and GitHub for version control.

Medical App Website

Freelance Frontend Web Development Project

- Developed a responsive medical web application using HTML, CSS, and JavaScript.
- Designed user interfaces for doctors, hospitals, appointments, and user profiles.
- Implemented authentication pages including sign in and account creation.
- Built a user-friendly navigation system optimized for desktop and mobile devices.
- Applied responsive design principles and modern UI practices to improve user experience.

LANGUAGES
